

# CO<sub>2</sub> EVAPORATORS

DISCOVER A WIDE RANGE OF  
EVAPORATORS TAILORED TO  
MEET YOUR SPECIFIC CO<sub>2</sub> NEEDS.

Our evaporators are engineered for CO<sub>2</sub>'s high operating pressures and unique thermodynamic properties, ensuring safety, efficiency, and compatibility.

**90 Bar  
(1300 PSI)  
CO<sub>2</sub>  
Evaporators  
Available.**

## EVAPORATORS

Designed with your needs in mind, our CO<sub>2</sub> evaporators focus on efficiency, reliability, and durability, ensuring long-lasting performance. A wide variety of styles and capacities allows you to tailor the correct selection for your specific applications and voltage supply needs.

### KEY FEATURES:

- 90 Bar (1300 PSI) AWEF-EXEMPT models available. Contact your local sales representative for details.
- 45 bar AWEF-approved models available.
- EC motors with patented SmartSpeed® Technology.
- High-efficiency and high-strength fan guards. Our patented honeycomb design provides industry-leading throw.
- New fan blade design provides quieter operation without sacrificing performance.
- Single fan and multi-fan configurations.

## EVAPORATORS

**LOW VELOCITY TLV**

**TWO-WAY MEDIUM  
PROFILE TTM**

**LOW PROFILE TLP**

**MEDIUM PROFILE TMP**

**EXTENDED PROFILE TEP**

**HIGH PROFILE THP**

**APPROVALS ON THE  
CO<sub>2</sub> EVAPORATORS:**

All our evaporators come with 90 Bar (1300 PSI) AWEF-EXEMPT models. For more details, contact your local sales representative.
